## ROAD WORK PLANS OUTLINED BY BOARD

Dona Ana Road Engineer Confers With Board as Expenditures.

Las Cruces, N. M., March 7.—At its last regular meeting, the Dona Ana county road board consulted with the newly appointed county road engineer, John D. Meriwether, and laid out a plan of work to be carried out in the near future. The plan outlined by the board included the following:

To prepare as soon as possible a map and general plan of the county roads, accompanied by recommendations as to the best manner of applying the proceeds of the new \$100,000 county road bond issue, in such a manner as to most benefit the people of the county and to furnish to the board recommendations as to the character of road to be built, the machinery to be purchased, and estimates on the various types of road construction. The board also decided to afford opportunity to all citizens of the county who so desire, to present recommendations or suggestions to the board as to the expenditure of the bond issue, before starting upon the work of road construction.

The board instructed the county engineer to make an estimate of the cost of grading and improving the road on the east side of the river, which runs from the Mesquite station to San Miguel. The western portion of this road has already been built by the co-operation of the citizens of San Miguel and vicinity; and following its policy of helping those who help themselves, the county road board has decided to improve and grade at the expense of the citizens the remaining part of the Mesquite-San Miguel road.

The engineer was also instructed to visit the northern part of the county

and investigate the wants of the citizens of the various precincts of that section, in the way of road and bridge repairs. He was also instructed to visit the west side of the lower valley and report upon the number and size of culverts and bridges most urgently needed in connection with the new road being opened and improved between San Miguel and La Union at the expense of the county.

The board authorized the purchase of a new grader, road plow, and other needed machinery for the use of the county.

The names of five individuals reported to have taken county material from the old Anthony bridge, were presented to the board, and action was taken.

The board decided to call out the road tax from railroad employees along the lines of the three railroad companies running through the county.

The matter of early construction of the new link of the Camino Real to be built between Dona Ana and Leaburg, north of Las Cruces, was considered, and a plan was made for the immediate starting of the work, in cooperation with the New Mexico state highway commission. The estimated cost of this link of the road is \$3,400, and this work will be immediately followed by completing the highway north to the Sierra Blanca line. The reclamation service has arranged to cooperate with the Dona Ana county road board in the construction of this road.

The general interest being taken in road affairs of the county was exemplified at this meeting of the road board by the number of citizens present to consult with the board in regard to various road matters. The road board consists of W. S. Gilliam, Francis E. Lester, and Pearl H. Bailey. John D. Meriwether is the road engineer who has recently been permanently engaged by the county. He devotes his entire time to the roads of the county.

One interesting step taken by the board is the installation of inverted corrugated iron siphons throughout the county, his does away with the raised bridges where ditches cross a public highway, and by the use of the inverted siphon the corrugated metal is low enough below the level of the road to prevent being exposed to wear or injury by traffic.

## FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

The woman with tender skin dreads February and March because they are likely to cover her face with ugly freckles. No matter how thick her veil, the sun and wind have a strong tendency to make her freckle.

Fortunately for her peace of mind, the recent discovery of a new prescription, ethine—double strength, makes it possible for even those most susceptible to freckles to keep the skin clear and white. No matter how stubborn a case of freckles you have, the double strength ethine should remove them.

Get an ounce from Potter Drug Co. and banish the freckles. Money back if it fails.—Adv.

## TWO MEN LOSE WAY IN JORNADO DESERT

No Sign Boards on Road to Guide Them and They Drive 30 Miles Out

Anthony, N. M., March 7.—O. J. Durand and R. M. Martin, passing through here from Albuquerque in Durand's Ford car, lost their way between Eagle and Rincon, taking a road that led them 30 miles out of their way into the Jornada desert. Mr. Durand says that if anything had happened like a broken axle, it would have been a very serious matter, and that such mistakes might be easily avoided by a few sign posts along the way. Mr. Durand thinks lack of sign posts has discouraged a great deal of overland travel. The roads were fairly good except between Rincon and Las Cruces, a matter which he understands will be remedied in the near future.

## VETERAN OF 82—LIFE SAVED

Mr. W. C. Atkinson is filled with enthusiasm over his complete recovery from grip and loss of appetite.

"I myself do firmly believe that had I not seen the advertisement of Duffy's Pure Malt Whiskey on my return to my country home from the National Soldiers' Home in Tenn., I would have died, as I had taken a very severe cold which gave me grip and I could not eat enough to give strength. Right then I bought 6 bottles. It helped me so much that I vowed that thereafter I would not be without it.

"I know that, taken as prescribed, it is certainly good for old people. I am a veteran of the Mexican War of 1846. I was a musician only 17 years of age. I was 82 years old September 1 of 1908. Very distinctly I remember seeing the stars fall!"—W. C. Atkinson, Russellville, Tenn.

## LIFE SIZED BRONZE BUST

The bust, a replica of which will be placed in the department, was presented to Mr. Wilson at the national museum building by the employees of the department, in the presence of secretary of state Bryan and secretary of agriculture, Houston, and several hundred of the men and women who have worked with the retiring secretary in the many years he has served the department.

In his address to his former co-workers, Mr. Wilson said he appreciated the thought of those who wished to give him some token of their love and affection and declared he was returning to his native state with a warm spot in his heart for all of them.

Mrs. Pitchford fainted in court when the verdict was announced.

## TOMORROW

DR. JEKYLL AND MR. HYDE

TWO REEL FEATURE

It is seldom that one man or one woman dominates a play or a picture. In these two reels King Baggot holds the center of attention all the way. In his portrayal of the good Dr. Jekyll and the bad Mr. Hyde, this dual identity so singularly interwoven, this strange creation of Robert Louis Stevenson's, the leading man of the Imp Company outdoes himself. It is a forceful characterization, and shows much care and study. In the periods when Mr. Baggot depicts Mr. Hyde the horror of it holds you. It may be said, and said in cold blood, that Mr. Baggot has done nothing for the screen that will rank higher as an artistic piece of work than will his exposition of Mr. Hyde—the transformation of the charitable physician into a fiend.
